

TANAGER PHOTO TOURS

Is a specialist wildlife and nature travel company dedicated to showcasing some of the world's most biodiverse ecosystems through photography and watching-focused itineraries. Drawing on a deep appreciation for the richness of ecosystems—from tropical rainforests and cloud forests to savannas and coastal habitats - Tanager Photo Tours aims to connect travelers with spectacular wildlife and birds in stunning landscapes in a responsible, conservation-minded framework.

We invite you to explore the Neotropics like never before with our small-group birding and wildlife photography tours, all of them designed to be easy-paced, immersive, and inclusive.

ABOUT US

-  **Who we are:** A small team of wildlife lovers partnering with local guides and communities to deliver authentic, responsible travel.
-  **What we offer:** Birding and wildlife photography tours, easy-going holidays, and tailor-made itineraries.
-  **Our pledge:** Strengthen regional economies by promoting natural resources while benefiting rural communities.

Colombia, destination overview

COLOMBIA

Overview: Colombia offers a remarkable mosaic of habitats, from Andean cloud forests to Amazonian floodplains, home to 2000 bird species and wildlife encounters. Community-based tourism and local guides showcase diverse ecosystems while supporting rural economies.

Seasonality: Best birding months vary by region; consider dry-season windows in Andean zones and the wet season for rainforest locales.

Highlights: Iconic species and photo opportunities across Colombia's biomes (eagles over Andean cliffs, colorful tanagers, hornbills in lowland forests, primates in riverine habitats, and spectacular macaws in the Amazon).

Typical Habitats: from the Paramos and high Andean forest above 12.000 ft, to the Amazon rainforest in the lowlands.

OUR TRIPS **IN COLOMBIA**

Colombia, Magic Andes.

Overview: A high-altitude, dramatic contrast landscape spanning cloud forests, páramo ecosystems, and snow-capped Andean peaks. This destination offers dramatic backdrops for birding and wildlife photography, from endemic high-elevation species to striking montane scenery.

Seasonality: Dry-season windows December through march and July to September.

Highlights: Endemic & high-elevation birds, panoramic mountain vistas, misty cloud forests, and opportunities for macro work among alpine flora.

Typical Habitats: Páramo, cloud forest, high-Andean forest.
